DC4KIDS Touchdown Challenge

Derek and Heather Carr proudly support Valley Children's Healthcare through their own very personal connection. Hours after their son, Dallas, was born in 2013, he was rushed into emergency surgery at Valley Children's Hospital. Dallas was born with intestinal malrotation, a potentially life-threatening congenital anomaly that can cut off blood supply to the intestinal tract. Dallas underwent two more surgeries and spent 23 days in Valley Children's Level IV Neonatal Intensive Care Unit, the highest level of care available for neonates and infants between the Bay Area and Los Angeles.

Today, Dallas is a healthy and playful big brother. Derek and Heather credit the pediatric specialists at Valley Children's for providing their son with the life saving care.

"The Valley Children's team saved my son's life. They gave my family hope and will continue to help families for decades to come. It's my hospital. It's your hospital."

-Derek Carr, Professional Football Player and Valley Children's Supporter

Derek and Heather would like to invite you to join their family in supporting the DC4KIDS Touchdown Challenge. For a \$2,500 membership donation you can become an integral part of Valley Children's mission to provide the best care to local children.
