

SecureAuth Authenticator App Instructions

1. Open the app/play store on your phone and install **“SecureAuth Authenticator”**

2. Once the SecureAuth Authenticator app is installed, tap **“Open”**

3. Once the app opens tap **“Allow”** on both prompts

4. On a separate device (pc/laptop) go to
5. ["https://remote.valleychildrens.org/appsetup"](https://remote.valleychildrens.org/appsetup) and login with your VCH credentials.

***You will be allowed to perform this while connected to the VCH network (on-site, remote sites, VPN, etc). If you are not connected to the VCH network, you will have to contact the ITS Support line at 559-353-7300, to receive your one-time PIN to proceed.**

6. Once you have logged in, scan the **"QR Code"** presented on your screen with the **SecureAuth Authentication App**. There is a button on the upper left of the App screen that will initiate the scan. The button looks like this:

7. Once you have scanned the QR code you will see a registration code on your phone. Enter the **"code"** into the textbox on the setup page on your PC/laptop and click **"Enable"**

3. Confirm

Enter the verification code generated by your two-factor authentication app.

 Enter custom app name

8. Now your phone is registered and you can close the web page and the app.

Setup Complete

You have successfully set up multi-factor authentication on your device:

Kevin's iPhone

You may now close the browser or

[Restart Login](#)
